SCETAUROUTE

TRANSPORT INFRASTRUCTURE ENGINEERING

Tirana, June 2005

To whom it may concern

We confirm that the staff of Lorenco & Co has been working with Scetauroute since March 2003 on two big projects financed from European Commission:

- Qafe Thane – Pogradec – Korce (2003-2004) 65 km
  (The contract value of Lorenco & Co. was 156 000 Euro)

- Fier (Levan) – Tepelene (2004 -2005) 72 km
  (The contract value of Lorenco & Co. was 95 000 Euro)

These two projects have been excluded from local taxes.

During all this time they have demonstrated a great understanding of many different design problems required for these two projects.

Their integrity and professional performance has been a critical part and a major factor in the success of these projects including topographical studies, road design, bridge structures, retaining walls, slide areas, environment, etc.

We also confirm that "Lorenco & Co." a Design and Surveying company established from the above mentioned qualified experts in the field of Transport Infrastructure Engineering.

We highly recommend Lorenco & Co for any endeavour they may wish to approach.
